

HOLIDAY SURVIVAL KIT

The holidays can sometimes feel crazy - like a zoo
I've made a holiday survival kit just for you

Mints for when your stomach is stressed

Napkins to help you clean up a mess

A bandage to fix what's not working right

A candle to help you keep shining your light

A compass to keep you from losing your way

Tea to relax at the end of the day

A match for when you feel burned out

A kiss to remind you that you're cared about

Confetti to remind you to have fun 

Marbles for when you've lost your last one

A penny so you're never broke

Tinsel so your holidays glow

A string to tie up any loose ends

Extra love for your family and friends

(And  a bag to help you keep it together)
